

TINPLATE WELDING MACHINE FOR BOXES → FOCUS

The speed machines are used for speed and high speed welder operations. They cover wide range of applications.

TINPLATE WELDING MACHINE → TECHNICAL DATA

****Stainless and tinplate steel can also be welded with custom setting configurations**
Technical data may change without further notice
Custom versions available on demand

TECHNICAL DATA		TINPLATE CANS AND PAILS WELDING MACHINE	
		MARW 60	MARW 120
Bodies diameter	mm	min. 150 max 330	min. 99 max 300
Bodies height	mm	85-550-650	85-400
Sheet thickness	mm	0,25 - 0,6	0,18 - 0,3
Overlap	mm	0,5 - 1,2	0,4 - 0,6
Output rate**	Cpm	65	120
Welding speed	m/1'	Min.5-Max 13 at 50/60 Min.5-max.35)*
